

Come to the Source for

PANELS and SHEETS

REBCO can provide panels and sheets to meet your specific needs.

Choose REBCO Standard or Custom!

Standard - In Stock - REBCO keeps a full line of aluminum sheets and aluminum glazing panels in stock - ready for delivery when you need it.

Sheets - RebcO's Clear Anodized, Dark Bronze Anodized and Black Anodized sheets are available in various thicknesses and offer a fade and abrasion resistant finish with consistent color uniformity for long life in exterior applications.

Our White and Brown pre-painted .032 thick sheets offer durability for outdoor exposure. Their hard abrasive resistant finish is durable yet flexible enough to allow for forming and fabricating.

Panels - RebcO's 1/4" and 1" thick panels are available in Grey Paint (to match Clear Anodized), Dark Bronze Paint and White Painted finishes. These textured panels can be used in any glazing application and are made with innovative composite stabilizers consisting of a solid thermo plastic recycled core with an added layer of aluminum. They are lightweight, yet strong, durable and highly moisture resistant.

Custom Panels - Custom colors and sizes are available on request. Panels can be finished on either one or two sides with a smooth or textured finish, and can be cut to specific sizes at our factory at special request.

Our standard delivery services apply to our panel products as well as REBCO windows, entrances and storefront systems which are fabricated in our 100,000 square foot plant. We also stock a large variety of aluminum angles, channels, extrusions, and stock door packages for "just-in-time" delivery.

Call today for REBCO's current pricing and delivery information. Our courteous and knowledgeable inside sales staff will be more than happy to provide you with the information and product literature you need. A copy of our detailed product catalog is available online or by request.

When it comes to panels and sheets ... **REBCO'S IN FRONT!!!**
